PROFESSIONAL SUMMARY

Detail-oriented and analytical Computer Applications graduate specializing in Data Science. Equipped with strong technical skills in Python, SQL, and Excel, and a foundational understanding of Machine Learning and Artificial Intelligence. Adept at transforming raw data into actionable insights and designing solutions for real-world problems. Eager to bring technical proficiency, problem-solving skills, and a passion for data analytics to a progressive organization as a Data Analyst.

EDUCATION

GLA University, Mathura

Bachelor of Computer Applications (BCA) — Data Science Specialization

Graduation Year: 2026

Delhi Public School, Mathura

Class XII (Senior Secondary)

2022

P.D.D.S.V.M, Vrindavan

Class X (Secondary)

2020

PROJECTS

Sales Performance Dashboard

Power BI, Microsoft Excel

- Developed an interactive Power BI dashboard to analyze sales transaction data, identifying seasonal trends and customer purchasing patterns.
- Cleaned and preprocessed unstructured data using Excel/Power Query to prepare it for visualization.
- Calculated key performance indicators (KPIs) including Total Revenue, Profit Margins, and Year-over-Year growth using DAX measures.
- Provided key business recommendations that highlighted underperforming product categories.

Database Management & SQL Query Optimization

SQL (MySQL)

- Designed a relational database schema for a mock e-commerce platform and wrote complex SQL queries (JOINS, subqueries, aggregations) to extract business metrics.
- Optimized query performance by creating indexes and rewriting nested queries.
- Analyzed query execution plans using EXPLAIN to reduce execution time and eliminate full table scans.

TECHNICAL SKILLS

Programming & Libraries: Python (NumPy, Pandas), SQL, C, HTML & CSS

Analytics & Data Visualization: Power BI (DAX, Power Query, Data Modeling), Microsoft Excel, Statistical Analysis, Exploratory Data Analysis (EDA)

AI & Machine Learning: Machine Learning Fundamentals, Artificial Intelligence, Prompt Engineering

Infrastructure & Databases: Dataset Management & Preprocessing, MySQL/PostgreSQL, Git/GitHub, Jupyter Notebook

CERTIFICATIONS

- Foundations: Data, Data, Everywhere** – Google
- Python Programming Fundamentals** – Microsoft
- Python for Data Science** – Cognitive AI
- HTML & CSS** – LetsUpgrade
